

Name of research project List

Grants-in-Aid for Scientific Research(KAKENHI) in 2023

New

	KAKENHI research category	Research project	Principal Investigator	School	Direct Costs (YEN)	Indirect Costs (YEN)
1	Scientific Research (C)	A study of management control systems aligned with leadership for implementing strategies	OKU Noriaki	School of Business and Commerce	1,500,000	450,000
2	Scientific Research (C)	Research on the Development of Effective Interventions to Reduce Public Stigma Among Persons with Mental Disorders	MATSUMOTO Sumiko	School of Human and Social Sciences	700,000	210,000
3	Scientific Research (C)	Foreign Aid Dependency in the Post-Conflict States of South Asia	Shin Sojin	Institute for International Strategy	1,200,000	360,000
4	Scientific Research (C)	A study on Female entrepreneurs' career formation	ISHIGURO Kuniko	Institute for International Strategy	1,100,000	330,000
5	Scientific Research (C)	Effect of different breastfeeding postures on upper limbs and trunk muscles	TAKEDA Kaname	School of Health Sciences	800,000	240,000
6	Scientific Research (C)	Analysis of brain activity during rhythmic passive movement	MASUGI Yohei	School of Health Sciences	2,800,000	840,000
7	Scientific Research (C)	Investigation of non-invasive neuromuscular modulation method using repetitive peripheral magnetic stimulation	MOROZUMI Kazunori	School of Health Sciences	3,200,000	960,000
8	Early-Career Scientists	Building a Teacher Education System to Promote the Utilizing ICT in Physical Education Classes	KIHARA Shinsuke	School of Human and Social Sciences	1,100,000	330,000
Total					12,400,000	3,720,000
Total(Direct Costs+Indirect Costs)					16,120,000	

Continue

	KAKENHI research category	Research project	Principal Investigator	School	Direct Costs (YEN)	Indirect Costs (YEN)
1	Scientific Research (B)	US Policy towards North Korea: Comparative Study on the Clinton, Bush and Trump Administrations' Policies, and Review of China Factor	IZUMI Hajime	Institute for International Strategy	3,700,000	1,110,000
2	Scientific Research (C)	Conditions and Issues for Accepting the Concept of Language Rights under International Law into Japanese Domestic Law: Focusing on ethnic heritage languages.	SUGIMOTO Atsubumi	School of International Relations	900,000	270,000
3	Scientific Research (C)	Build a comprehensive support system to implement co-parenting after divorce	ODAGIRI Noriko	School of Human and Social Sciences	500,000	150,000
4	Scientific Research (C)	A new strategy for breathlessness relief and inspiratory muscle training by augmented perception of inspiratory flow in patients with interstitial pneumonia.	KANEZAKI Masashi	School of Health Sciences	200,000	60,000
5	Scientific Research (C)	Influence of gait adaptation on falling after discharge in stroke patients	KAWASAKI Tsubasa	School of Health Sciences	350,000	105,000
6	Scientific Research (C)	Studies on career in professional clubs	JODAI Keiko	School of Human and Social Sciences	300,000	90,000
7	Scientific Research (C)	Comparative Studies of the Emergence of Multi-cultural Communities: From the Perspective of Composite Identity of Jewish People in Europe and North-Africa.	YOSHIDA Kazuhiko	School of Business and Commerce	900,000	270,000
8	Scientific Research (C)	Entrepreneurship through bricolage in times of crisis: A cross-country analysis	TAJEDDINI Kayhan	Institute for International Strategy	700,000	210,000
9	Scientific Research (C)	Longitudinal and follow-up study by visualizing learning contents of elementary school and junior high school for formulating learning contents of physical education	IMAZEKI Toyokazu	School of Human and Social Sciences	900,000	270,000
10	Scientific Research (C)	Research on the Integration and Management Manner of Machine Learning Models in Federated Learnings by Distributed Computers	TSUCHIYA Takeshi	Institute for Data Science Education	1,000,000	300,000
11	Scientific Research (C)	A database construction of asbestos world flow for supply chain analysis: a multi-regional input-output approach	TSUKUI Makiko	School of Business and Commerce	1,200,000	360,000
12	Early-Career Scientists	Analysis of patellofemoral kinematics using 3D-to-2D registration	IKUTA Futoshi	School of Health Sciences	400,000	120,000
13	Early-Career Scientists	A prospective injury surveillance study; circumstances and risk factors of sports-related injuries in elite para swimming athletes	SHIMURA Keita	School of Health Sciences	200,000	60,000
Total					11,250,000	3,375,000
Total(Direct Costs+Indirect Costs)					14,625,000	

Extension

	KAKENHI research category	Research project	Principal Investigator	School	Direct Costs (YEN)	Indirect Costs (YEN)
1	Scientific Research (C)	Restructuring supply chains and deploying servicing	MATSUO Hirofumi	Institute for International Strategy	Fully disbursed	
2	Scientific Research (C)	An electrophysiological and optical 3D motion analysis study concerning momentary loss of strength in a rapid motion	FUMOTO Masaki	School of Health Sciences	Fully disbursed	
3	Challenging Research(Exploratory)	Basic Research into Visually Impaired Persons' Creation and Use of Auditory Information by Actively Tapping with White Canes	NUNOKAWA Kiyohiko	School of Human and Social Sciences	Fully disbursed	
4	Scientific Research (C)	The influence of sensory variables in workspace on employee satisfaction	HIRAKI Ikumi	School of Business and Commerce	Fully disbursed	
5	Scientific Research (C)	The current historical consciousness in regional communities in Japan (and its critical issue) — A study of the crisis and multilayer of local history ("kyoudo-shi") —	TAKADA Tomokazu	School of Human and Social Sciences	Fully disbursed	
6	Scientific Research (C)	An International Comparative Study on Women's Empowerment and Human Resource Management Strategies	ISHIGURO Kuniko	Institute for International Strategy	Fully disbursed	
7	Early-Career Scientists	Effects of menstruation on mood swings in healthy volunteers and bipolar patients: a mechanism of action that includes sleep and interpersonal relationships	NARUSE Mayu	School of Human and Social Sciences	Fully disbursed	
8	Challenging Research(Exploratory)	Urgent Investigation of Japanese Competency of Specific Technic Intern Trainees in Quantitative and Qualitative Methods	SUKEGAWA Yasuhiko	Office for Educational Research and Initiatives	Fully disbursed	
9	Scientific Research (C)	Simple Signs in Medical Facilities from the Viewpoint of Visual Literacy	OKAMOTO Noriko	School of International Relations	Fully disbursed	
10	Early-Career Scientists	Balancing National Security and Sovereign Sensitivity: Re-examining the Law of the Sea Convention and Freedom of Navigation in Southeast Asia	ORDANIEL Jeffrey	Institute for International Strategy	Fully disbursed	
11	Early-Career Scientists	Development of a Neuromodulation Method Using Local Vibratory Stimulation and Transcutaneous Spinal Cord Stimulation	MASUGI Yohei	School of Health Sciences	Fully disbursed	
12	Research Activity Start-up	Empirical study of Japanese pronunciation instruction aiming at scaffolding for autonomous learning	ODO Yutaro	Japanese Language Institute	Fully disbursed	
13	Early-Career Scientists	A Historical Study on the Teaching of Movement Techniques in Physical Education in Japan	FUJIKAWA Kazutoshi	School of Human and Social Sciences	695,658	0 ※
14	Early-Career Scientists	The Effect of Differences in Urban Structure on the Financial Accounts of Municipal Governments	SEKIGUCHI Shunsuke	School of Economics	283,495	0 ※

※ Fully disbursed by the previous year. Only the unused amount of the previous year is transferred from the predecessor school.
